After the lumense crowd of Decoration Day the Gravesend track was a place where solid comfort could be enjoyed yesterday after-noon, even though more than 20,000 persons \$1,500 for four-year olds and moon, even though more than 20,000 persons were present. The distance, one mile, was covered

King Hanover in 1 40 1-5. Masterman carried stake weight, 126 pounds, and conceded eight pounds to every other horse in the race. In the betting, Gen. F. C. McLewee's Major Daingerfield being scratched, the bookmakers placed King Hanover, Masterman and S S Brown's Hyphen, by Himyar Semaphore, on an equal basis, the first odds against each being 11 to 5 A Featherstone s Igniter and G. B. Morris's Cunard were allowed to go up to twelves. The start was good and quick as Burns rushed King Hanover into the lead. Mr. Whitney's colt had the rail and never let go of it. Odom made Hyphen cling to the pacemaker so closely going around the lower turn and into the backstretch that the two lockeys seemed to be elbowing each other. On the outside at Hyphen's flank was Masterman, Builman keeping a tight hold on Mr. Belmont's colt.

Nearing the far turn Hyphen made a final attempt to wrest the lead from King Hanover, but Mr. Whitney's colt stailed him off neatly. When straightened out for the run home it became necessary for Burns to ride the Hanover colt a bit, for Masterman had been let down. King Hanover increased his speed, but Masterman continued to gain Then Burns went to the whip, Builman sub-jecting Masterman to similar treatment As the duel neared a finish there were conflicting roars of encouragement Burns's whip kept busy clear to the wire, where King Hanover had a length and Masterman showed a length and a half before Hyphen

Story With a 'A thing of beauty a joy forever " Moral. Manufactured by

Once upon a time, as they say in fairy tales, a man wished to fit out a stable. He bought a team of horses from a friend - with a most disappointing result. Upon another friend's advice he bought some carriages, which turned out to be wholly inappropriate for his use, and some harness, which proved later to be entirely incorrect as to appointments. In a short time the man became discouraged-he sold his horses, disposed of his carriages, and parted with his harness for much less than they cost him.

Then he went to a horsedealer and got some good horses-he went to a carriage builder and bought carriages to suit his requirements-he went to a reputable harness house, and they gave him harness and stable outfits in consonance with his carriages and his
